Attention Mashup Campers:

I'm sure you've heard about Adobe's coolest tool for mashups: Flex 2.0. This tool is new, exciting and best of all, FREE!* Adobe talked about it at Mashup University. If you missed that or want to learn more, this meeting is for you.

You may be wondering:

Do I need to know what Flex is?

Do I need to live in the Valley to attend?

Do I need to know how to program in Flex?

The answer: NO.

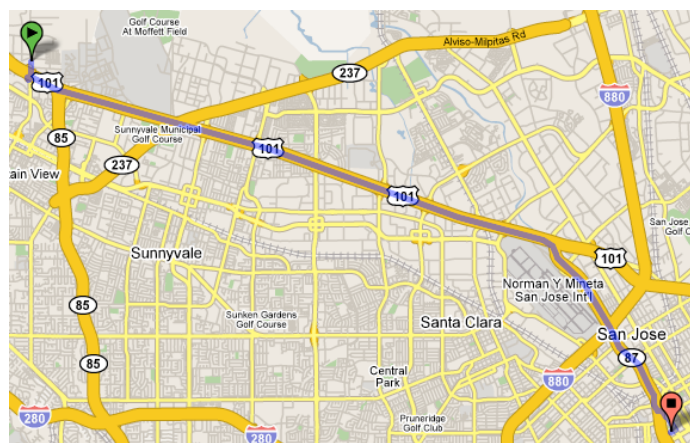

We'll tell you all about Flex and even give out a free training package from the renowned round-peg training center.

Keep the camp learning going and come join us!
